

TAMIRAT DEREJE

Software Engineer — Full-Stack Development & AI/ML

Adama , Ethiopia | +251 910 293 976 | tamiratdereje53@gmail.com | github.com/tamed29 | linkedin.com/in/tamirat-dereje

SUMMARY

Full-stack software engineer and fourth-year Software Engineering student at Arbaminch university with three years of hands-on experience designing, building, and deploying production web applications across transportation, hospitality, humanitarian, and campus-security sectors. Comfortable owning a project end to end — from database design and API architecture through to deployment and maintenance. Currently deepening a specialization in AI and machine learning, with the aim of building software that pairs solid engineering with practical intelligence.

EXPERIENCE

Full-Stack Software Developer

Independent / Project-Based | 2024 – Present

- Designed and shipped more than ten production web applications for real organizations, covering transportation booking, hospitality management, humanitarian fundraising, and campus asset security.
- Built responsive front ends with React.js and Next.js, and RESTful back ends with Node.js/Express.js and Laravel.
- Implemented authentication, role-based access control, and multi-admin systems for platforms with distinct user permission tiers.
- Designed relational and NoSQL data models across PostgreSQL, MongoDB, and Firebase/Firestore depending on project requirements.
- Deployed and maintained live applications on Vercel, Render, and Firebase, handling debugging, performance tuning, and ongoing iteration post-launch.

EDUCATION

B.Sc. in Software Engineering

Arba Minch University

Fourth-year student, expected graduation 2028

AVAILABLE FOR

Software engineering roles, AI/ML-focused projects, freelance and contract work, and internship opportunities.

LANGUAGES

I am able to communicate effectively and confidently in the following languages:

- English -----Fluent
- Amharic ---- Fluent
- Afaan Oromo -- Native

SKILLS & TOOLS

Languages

JavaScript	TypeScript	Python	PHP	Java	SQL
------------	------------	--------	-----	------	-----

HTML5	CSS3
-------	------

Frontend

React.js	Next.js	Vite	Tailwind CSS
----------	---------	------	--------------

Backend

Node.js	Express.js	Laravel	REST APIs
---------	------------	---------	-----------

JWT Auth

Databases

PostgreSQL	MongoDB	Firebase/Firestore	MySQL
------------	---------	--------------------	-------

AI / Machine Learning

Python	NumPy	Pandas
--------	-------	--------

ML Fundamentals (in progress)

Tools & Cloud

Git	GitHub	Postman	Cloudinary	Vercel
-----	--------	---------	------------	--------

Render	Railway	Supabase
--------	---------	----------

PROJECTS

Abbay Bus Management & Online Booking System

Next.js · React · Tailwind CSS · Laravel · PostgreSQL

abbay-bus.vercel.app

Online bus trip management and passenger booking platform with multi-role administration; a companion mobile app is in active development.

Wubet Arba Minch Humanitarian Association Platform

React · Tailwind CSS · Node.js · Express.js · Firebase

wubet-amha.vercel.app

Organization website with online donation processing and role-based content administration for a humanitarian nonprofit.

Aethelgard Boutique Hotel & Spa Management System

Next.js · React · Tailwind CSS · Node.js · MongoDB

aethelgard-boutique-hotel-spa.vercel.app

Online room and spa-service booking system with a full administrative dashboard for reservation and operations management.

AMUSecure — Campus Asset Verification System

React · Vite · Node.js · Express.js · Firebase · JWT

amu-pc.vercel.app

Digital registration and verification system for student/staff devices entering and leaving campus, replacing a manual paper process.

Digital Hotel QR Menu & Guest Feedback System

Next.js · React · Tailwind CSS · Node.js · Firebase

digital-qr-menu-blond.vercel.app

Contactless QR-code menu and guest-service platform allowing hotel guests to browse, request service, and leave feedback from their phones.
